Choose What Really Matters

Life is made more memorable when we make the choices that really matter. With clever features complemented by a stunning presence, the Škoda Kushaq elevates every journey with grace. Here is a car that seamlessly fits into the culture that makes India and embraces each road as its own. So, make the choice that really matters with the new Škoda Kushaq.

A Sight To Behold

Keeping up with the smart, the new Škoda Kushaq is a perfect blend of design and function. A vision from afar and up close, the many features of this car add to its functionality, without compromising on luxury. The reasons to marvel at this car are plenty.

Exterior Design

Front View

The Škoda Kushaq with the Škoda signature grille and chrome surround evokes feelings of strength and safety. The front is dominated by sharply cut headlamps and fog lamps. The chrome highlights on the front bumper air intake as well as the silver armoured front diffuser enhance the car's form.

Rear View

With the unmistakable Škoda lettering at the rear, the car proudly carries its heritage. The distinctive wedged-shaped tail lights with the familiar C-shaped illumination, reference the Czech crystal glass-making tradition. The dynamic trunk spoiler and the chrome strip on the trunk enhance the car's form. The reflectors are recessed in the rear bumper to protect them from damage. The Škoda Kushaq also features a robust protective cover and the silver armoured rear diffuser, adding to its robustness.

Side View

While the angular wheel arches, silver side armoured cladding and protective sill covers accentuate the SUV's character, Škoda's Piano Black fender garnish with chrome outline and the window chrome garnish take it a notch above. The continuous play of light and shadow defined by the Škoda design language puts emotion and grace into the Škoda Kushaq's appearance.

Top View

As the electric sunroof allows you to create a large open space above the seats, the Glossy Black shark fin antenna and silver roof rails with a load capacity of 50 kg elevate the exterior design. Giving you the chance to enjoy new vistas and journeys even more.

Light Design

Path To Luminescence

An extension of its impeccable design, the Škoda Kushaq is equipped with a complete LED system for your seamless travels.

Škoda Crystalline LED Headlamps With Day Time Running Lights

The LED headlamps offer high performance with high energy efficiency. The main headlamps boast an eye-catching integrated strip of LED day time running lights. Under poor light conditions, the fog lamps with their static cornering function come into their own, ensuring maximum safety.

Škoda Crystalline Split Led Tail Lamps

The rear lights have LED technology as standard, while the crystalline design refers to Czech cubism and the country's glass-making tradition. Their sharp lines make the vehicle stand out confidently.

Interior Design

A Notch Above

The feeling of comfort envelopes you as soon as you step into the Škoda Kushaq. Clean lines of the dashboard, infotainment system placed in the driver's direct view, chrome details and ambient lighting add to the spacious design of Škoda Kushaq's interiors.

Dashboard

The new Škoda Kushaq dashboard with its chrome elements brings a unique style to the interior. Piano Black Luxe interiors coupled with premium honeycomb decor and ambient lighting. A classy chrome trim on air conditioning vents, AC ducts and the chrome door handles enhance the look and bring a neat uniformity to the design.

Design And Functionality

The car features a newly designed multifunctional 2-spoke steering wheel with chrome scrollers which allow you to control the radio, phone, and audio. The virtual cockpit behind the steering wheel also adds to the design of the car.

Comfort And Space

Škoda's craftsmanship is proudly presented inside. The front features ventilated black leather seats with perforated grey design while the rear has black leatherette seats with perforated grey design. Surrounded by high quality materials, you are sure to enjoy the drive, no matter where you sit. The exceptionally spacious interior offers generous legroom and headroom for everyone.

Scuff Plates With Kushaq Inscription

The decorative scuff plates enhance the aesthetics of the Škoda Kushaq. They also protect the paintwork around the scuff plate from dirt.

Ambient Light Package

Available in white colour, the ambient lighting helps dial up the snugness.

Performance

The Power To Outperform

Built to power through without compromising on performance, the new Škoda Kushaq is a powerhouse on the inside and the outside.

Engine

The Škoda Kushaq comes with 2 engine variants - 1.0 TSI and 1.5 TSI. The engines are modern, dynamic, and efficient.

1.0 TSI Engine

The 1.0 TSI engine, with 85 kW power and 178 Nm torque, is powerful yet efficient.

The engine is available in both manual and automatic.

1.5 TSI Engine*

The Škoda Kushaq's 1.5 TSI DSG engine with ACT - Active Cylinder Technology, the first in segment, churns out 110 kW power. Over 250 Nm torque ensures great acceleration and an enjoyable drive. It is available in both manual and automatic.

Manual Transmission

The car is offered with a 6-speed manual transmission.

Automatic Transmission

Depending on the engine, the car can be equipped with 6-speed automatic and 7-speed DSG transmission.

Safety

First Ever Car With 5-star Rating In
Child & Adult Safety.

Has Your Back.

The new Škoda Kushaq is equipped to keep the safety of every passenger at the forefront with 6 airbags, Electronic Stability, Control System, impact absorbing body components, side impact protection beams in the doors and other safety features.

SKODA KUSHAQ
2022 TEST

#SAFERCARSFORINDIA

High Strength Steel Frames

The all-new Škoda Kushaq has secured its position as India's safest family car with its robust, high-strength steel body that effectively absorbs kinetic energy, thereby minimizing the impact of any accident. Škoda's unwavering commitment to safety is evident in its exhaustive crash testing, which outperforms industry standards. The perfect integration of the car's restraint systems, such as seat belts and airbags, with its body structure, ensures unparalleled safety for families on the go.

Škoda Kushaq's marvelous design and engineering represent the epitome of safety, as evidenced by its 5-star Global NCAP rating for child and adult safety.

Safe Happens

In extreme situations, where the driver cannot actively influence the outcome, the car's passive elements take over – like airbags.

Front Side Airbags

These airbags protect the pelvis and chest of the driver and passengers in case of a side collision.

Curtain Airbags

These two airbags protect the pelvis and chest of the driver and other passengers in the event of a side collision.

Driver & Passenger Front Airbags

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

Hill Hold Control

HHC allows a safe start uphill without using the parking brake.

Tyre Pressure Monitoring System

Avoid unnecessary pitstops by keeping tabs on your tyres. This feature, which is standard across all variants, detects and alerts the driver to a drop in pressure in any of the 4 tyres.

Electronic Stability Control (Available Across All Variants)

ESC helps to maintain directional stability and tyre traction during understeer and oversteer.

Traction Control System (TCS)

TCS/ASR helps to stabilise the vehicle when accelerating or driving on low-grip roads. TCS/ASR reduces the drive power transmitted to the wheels when the wheels spin.

Anti-lock Braking System (ABS)

ABS helps maintain control of the vehicle during emergency braking. An ABS intervention is noticeable by pulsating movements of the brake pedal.

Roll Over Protection

On identifying a rollover threat, the ESC brakes particular wheels as prevention.

Brake Disc Wiping

BDW (rain) feature is to prevent slow brake "kick-in" in emergency situations.

Motor Slip Regulation (MSR)

MSR helps to maintain control of the vehicle in the event of a sudden reduction in speed. If wheels of the driven axle lock, MSR increases the engine speed. This reduces the braking effect of the engine and the wheels can rotate freely again.

Electronic Differential Locking System

EDS helps to stabilise the vehicle when driving on road surfaces with different grip under the individual wheels. XDS+ helps to keep the vehicle on the turn by effectively braking the wheels on the inner side of the turn. XDS is functional up to 30km/hr.

Multi-collision Brake

In case of an accident, the Multi-Collision Brake starts braking to prevent further uncontrolled movement of the vehicle, thus reducing the likelihood of further collisions.

Entertainment And Assistance, At Your Fingertips

Journey with ease, no matter the destination. The Škoda Kushaq comes with a whole range of infotainment and connectivity features.

Infotainment, Cockpit and Connectivity

20.32cm Škoda Infotainment System

A statement piece on the dashboard, the infotainment system can be operated via touch controls. With Wired SmartLink (Apple CarPlay & Android Auto), seamlessly connect your phone to the system. Browse the menu, navigate, make calls and more with everything you need within reach.

20.32cm Škoda Virtual Cockpit

The virtual display behind the steering wheel features information like speed, distance travelled, service interval, average fuel consumption, and much more.

MyŠKODA ConnectED

MyŠKODA ConnectED

MyŠKODA ConnectED Online Services

The inbuilt connectivity mobile online services can be accessed at any time via the MyŠKODA ConnectED app. The app displays a clearly laid out Vehicle Health Report on the smartphone. The system automatically stores important data every time the ignition is switched off. Remote vehicle access is also available, which allows owners to retrieve vehicle information and driving data, including the car's parking location for instance.

Track Your Car

Keep an eye on the car location from your home or office and stay informed when someone is driving your car.

Real-time Speed Tracking

Monitor the real time driving speed.

Geofence Breach Notification

Add geofence boundary for your car, get an alert as geofence area is breached.

Road Side Assistance

Get road side services like flat tyre repair, battery jump-start, refuelling, towing and a lot more.

SOS (Emergency SMS With Location)

Long press the SOS button to send an emergency SMS to your contacts with your location.

Route Tracking / Deviation Alert

Live track the travel route taken by your family and get quick deviation alerts.

Walk To Car

Locate your car quickly in big parking lots or crowded areas.

Device Tampering Alert

Stay alert with prompt notifications on device tampering.

Driving Behaviour

Get real-time information on driving behaviour eg: harsh braking, sharp turns, over speeding, rapid acceleration, etc.

Tow Alert

Get an alert in case your car is being towed away.

The Power To Outperform

Built to power through without compromising on performance, the new Škoda Kushaq is a powerhouse on the inside and the outside.

Smartphone Pocket

A unique and thoughtful feature for rear passengers to store their Smartphones safely.

Smartgrip Bottle Holder

A clever addition, it is designed to hold your bottles firmly in place, even allowing you to open them with one hand.

Utility Recess On The Dashboard

A designated space on the Dashboard to add a little bit of your personality to the car.

Smartclip Ticket Holder

The Smartclip ticket holder at the side of your windshield is placed to ensure that the tickets that need to be displayed are done so without hassle.

Reflective Safety Tape On All
Four Doors

Stay safe by staying visible even in low
light conditions.

Two 3 Kg Hooks In
The Trunk

A clever feature that
enables you to keep your
bags in one place without
worrying about spillage.

Storage

Carry All That Matters

Take a look inside and you'll find plenty of storage spaces and compartments. There is ample space for phones, glasses, refreshments and all your other essentials in the car.

Luggage Capacity

The Škoda Kushaq's luggage compartment features a lot of space and practical elements, which help keep the car tidy and prevent things from moving around. The car with standard rear seats (featuring 60:40 folding split) offers 385 litres of boot space with 2 fixed hooks and top-tether points. The rear seats can also be folded using a remote release button located in the luggage compartment.

Storage In The Front And Rear Doors

With designated spaces for bottles and cups in the front and rear of the car, the only thing one can spill is joy.

Storage In Front Centre Armrest

A place to house your devices, snacks and even electronics so they are within reach.

Cupholders In Armrest

Designated spaces for bottles and cups in the rear of the car help in elevating functionality of the interiors.

Cooled Glovebox

The glovebox is spacious enough to hold everything you need. It can also be cooled down to keep your snacks fresh.

Get Used To Extreme Comfort

Luxury is often accompanied with exclusive comfort and rightly so. The new Škoda Kushaq is designed to provide comfort at its finest with its thoughtful technology and smart features. So, pick your spot and be spoilt for good.

Comfort and Convenience

Rear View Camera With Static Guidelines

To make driving and parking a breeze, the car is equipped with a rear camera.

12V Power Socket In Front Centre Console

A 12V power socket is provided in the front centre console to give ease of use, on the go.

Adjustable Rear A/c Vents

The adjustable rear A/C vents ensure comfort to all passengers abode the Škoda Kushaq.

Wireless Charging
Wirelessly charge your phone while driving.
